

JUSTIN RAJADURAI P

PHP & CodeIgniter Specialist

South Kaduvetti | Thirunelveli, Tamilnadu, 627152 | 6383842680 | rajaduraijustin2@gmail.com

I completed my 12th standard in 2012 but failed initially. I reappeared for the exam and passed. Later, I completed my B.Com, graduating in 2016.

In the same year, I joined KPN Farm Fresh in Chennai as an accountant, where I worked for 2 years with a salary of ₹12,800 per month. I resigned in 2018 to pursue an MBA.

After completing my MBA, I started working as a fresher software developer in a startup company during 2020–2021 with a salary of ₹9,000. My next job was at Goldmine Technology, where I earned ₹14,000 per month. After 8 months, I didn't receive a salary increment, so I left and rejoined my previous company for ₹15,000. After 2 months, my performance was recognized, and my salary was increased to ₹17,500.

After 9 months, I successfully completed an LMS project (first and second phase), but despite this, my salary was not increased, so I decided to leave.

I then joined i3Matrix Pvt Ltd in Anna Nagar as an ERP developer. My initial salary was ₹25,000, which was increased to ₹30,000 after 3 months. After working there for 11 months, I got a new job with a salary of ₹40,000.

I work very well in PHP and CodeIgniter 3.
